LOCAL TEAMS ANXIOUS FOR VENICE TO COME

W. TIN CHONG WOULD LIKE TO PIT HIS TEAM AGAINST PU-NAHOU PRIOR TO OPENING OF MAINLAND SERIES-LINEUP OF BIG FELLOWS

In the midst of the great European

War the Olympic games have not been

forgotten. One of the leading Paris newspapers recently printed the follow-

ing editorial while the German army

With the closing of the present series between the Travelers and the Onhu Leagne teams at Athletic Park a week from next Sunday, there will still be a Saturday and Sunday open prior to the coming of the Venice Tigers. Just bow these dates will be filled is still undereided but a suggestion has been made that the champion Punahous meet the W. Tin Choog All-Chinese team in the Saturday game and the W. Tin Chong team meet the P. A. C. team in the Sunday game.

Manager A. L. Castle, of the Punahous meet with Blondy Williams against the Venice team, borrowing either Bliss or Elliott as a catcher. As his team is to meet the Tigers November 21, Castle squres a game November 21, Castle squres a game November 21, Castle squres a game November 21, will put the boys on edge for the game against the mainlanders. W. Tin Chong is of the opinion that he can well allow his men to play Punahou that day figuring it will be excellent practise for them. Then again there is a hit of keen rivalry between the Pons and All-Chinese and with Kan Yen behind the hat W.

The double tracking of King street is also going forward and will be completed long before the opening game of the All-American and All-National and with Kan Yen behind the bat W. Tin Chong things he will have a crack-ergask lineup in the field.

As this will be the last time the Paus and All-Chinese will get a chance to play until the opening of the 1915 senson, the game should be a keenly fought one and the fans should be well natisfied with the hrand of ball dished up to them prior to the coming of the crack Venici outfit.

As the lessor of the park has no

As the lessor of the park has no objections to those two teams playin nothing should stand in the way of them getting together nor the P. A. C's playing the Chong aggregation the following day.

Captain Jack Bliss of the Venitian Theory—this is the name adopted for

Tigers—this is the name adopted for the crack mainland baseball team which will visit Honolulu next month—has advised the local manager of the series that he has about completed his ar-rangements for the trip and the party is ready to depart from San Francisco on the Sierra November 10.

Owing to the fact that first baseman Borton of the Venice team has affiliated himself with the so-called outlaw Federal League, he will have to forego making the trip to Hawaii as the rules of organized baseball will not permit the rest of the men playing with him. In Borton's place Bliss has signed Pirst Haseman Derrick of the champion Fortland team of the Pacific Coast League so the fans are not to be denied seeing a crack first sacker in action.

According to Bliss, he and Klepfer will open as the battery against the crack Twenty-fifth Infantry team at Schofield Barracks November 19. Fans who have been following the Coast League teams will recall that Klepfer is rated the best pitcher in the Coast League and has been sold by Venice to the Chicago White Sox for \$5000, and when Charley Comiskey planks down \$5000 for a pitcher that pitcher must have something more than a glove

In the game against Punahon, Saturday, November 21, Bliss figures on using the great Jim Scott, or if Manager Castle so decides he can use Scott and Edicatt for his team and Williams and Bliss will work for the Tigers. Castle, in discussing the matter yesterday, stated that he would prefer to start with Blondy Williams, his regular pitcher, and use Elliott behind the bat. Both Bliss and Manager Lowry aim to give the fans of Honolulu real baseball, ind whatever arrangements the local teams which play Venice want to make will be satisfactory to the managers

The consensus of opinion among the business men appears to be that either all must use the billboards in order to keep any man from having an advantage over his competitors, or else their use should be entirely abolished.

Enormous Idabilities

However, he said, when it is taken into consideration that policy holders in Hawaii are now carrying over \$125,000,000 worth of insurance, all or a large portion of which might have to be paid by the insurance companies in case of a great conflagration or other general catastrophe affecting both life and property, it is apparent that the insurance commissioner owes some other duty to the people of this Territory than the mere collection of the license fees.

This \$125,000,000 of insurance represents \$28,000,000 fire protection, \$60,000,000 marine insurance, \$17,000,000 life and about \$20,000,000 fidelity, surety and miscellaneous risks.

ty and miscellaneous risks.

Protecting the Insured

Since the Baltimore and San Francisco disasters practically every State has taken cognizance of the fact that the insurance commissioner has a two-fold duty to perform. Chief of these is that of protection to the public—the people who buy the insurance and pay the premiums. Collection of taxes is considered of minor importance.

Every company that writes insurance in Hawaii ought to be compelled to maintain sufficient permanent investments of its surplus in the United States so that should there be any occasion for so doing the company can be sued in the American courts.

Unregistered Companies

Unregistered Companies

There are a number of companies doing business in Hawaii today that have not one dollar invested in the United States. Should the necessity for suit against any of these arise the only procedure would be to call in the services of the consular representative of our government in the home country of the company, a costly and long drawn out procedure. In the past the territorial treasure

ped to the other islands will be paid by the board of agriculture only to the nearest landing.

In the past the territorial treasurer has apparently assumed that if the companies that entered this field had been passed upon favorably by mainland insurance commissioners they were therefore sound. biliboards, as expressed through the workings of the Women's Outdoor Circle, are greatly displeased at the apparent tolerance of this form of advertising in certain lines.

One downtown merchant said yester day that as he had given up this kind of advertising in response to the general demand, he saw no reason why the dead walls and vacant lets should continue to be littered with theatrical and other amusement advertising posters.

"It seems like a failure of this movement to beautify the city for these hillboards to remain doing business at the same old stand after a lot of us have given ours up," was the way another business man expressed himself.

che setting forth the praises of a celebrated virtuoso who is about to make an appearance in the Opera House or elsewhere.

Just to rub it in good, they say, many of the very same people who are working actively to suppress the bill-boards, even to the extent of taking their trade away from merchants who continue to use them, will patronize the theatrical and musical performances whose advertising offends in the same manner.

One man said yesterday that while he would prefer to use the billiboards, as they brought him the business, he had nevertheless discontinued their use when the agitation against them was taken up. His grievance also was that the boards were still in use by other people in different lines.

The Trent Trust Company has commenced building a 1600 foot road consecting Upper Manoa Road with Oahu ayenue to give a frontage to thirteen targe and sightly residence lots makai of the Cooper tract. Cooper street is to be the name of a cross-valley road that connects Manoa road with Oahu avenue and the name Manoa Terrace will apply to a new roadway built in from Manoa road this side of the Castle Home.

L. H. Beadle stated yesterday that the added value which street frontage gives to the inside lots in this tract will more than pay the cost of street construction and loss of area. The new streets are to be from thirty to forty feet wide. They are to be surfaced with Manoa gravel.
